EFFECTIVE PROJECT & MANAGEMENT COACHING

SHIFT YOUR FOCUS FROM PLAN-DRIVEN TO VALUE-DRIVEN PROJECT DELIVERY

The Agile Project and Delivery Management sharpens essential agile project management abilities, including clear communication, rapid decision-making, and nurturing team innovation.

Attendees emerge as exemplary leaders, adept at guiding change and upholding a concise strategic focus.

ALL THE TOOLS AND SKILLS YOU MAY NEED

A **FORWARD FOCUSED** APPROACH TO AGILE **PROJECT** AND DELIVERY **MANAGEMENT**

The class goes beyond comparing traditional to agile project management practice. It is designed to help you master the mindset and skills needed to thrive in complex environments, empower your team to optimize performance and create lasting results.

It will encourage you to reflect on the meaning of value and the impact of a project beyond its delivery.

COURSE OBJECTIVES

MASTER THE MINDSET AND SKILLS NEEDED TO THRIVE IN COMPLEX ENVIRONMENTS

The Agile Company's Agile Project and Delivery Management course prepares participants to thrive in business terrain. It underscores the importance of adaptive planning, agility in execution, and a cooperative approach to project management.

Diving into Agile fundamentals, this program encourages a culture of ongoing enhancement, swift adaptability, and a focus on delivering meaningful results.

- Recommend the appropriate delivery mode for a case study or real-world initiative and justify their recommendation.
- Evaluate system metrics and make recommendations on changes at the team/initiative level for a case study or real-world organization.
- Demonstrate empowering behaviors through a simulation activity.
- Prepare a value model and articulate how you will validate value using a case study or real-world example.
- Provide specific examples to communicate the importance of adaptive planning to leaders beyond the team for a case study or real-world initiative.
