DEVOPS SAFE COACHING

AGILE MINDSET AND HOW TO DEAL WITH COMMON MYTHS AND IMPEDIMENTS TO AGILITY.

The SAFe DevOps certification program facilitates the **development of essential collaboration and Agile skills** necessary for driving successful organizational transformations. Participants transition from traditional approaches to value-driven software delivery and cultivate a culture of innovation.

This training equips **team members** with the ability to communicate effectively, make informed decisions promptly, and advocate for organizational agility confidently.

AN INNOVATIVE APPROACH FOR SAFE DEVOPS

Delve deep into the realm of Agile methodologies through our SAFe DevOps course, meticulously tailored to provide you with a **thorough understanding** of the Scaled Agile Framework's principles and practices. Say goodbye to conventional project management approaches and submerge yourself in the nuances of SAFe.

Our intricately designed course is your **gateway to acquiring the mindset** and capabilities essential for navigating complexities within the realm of DevOps.

COURSE OBJECTIVES

THIS SAFE DEVOPS COURSE ALSO DELVES INTO CULTIVATING AN AGILE MINDSET AND ADDRESSES PREVALENT MYTHS AND BARRIERS TO AGILITY.

The SAFe DevOps (SDP) course offers a **comprehensive exploration of essential skills** crucial for success in today's Agile environment. Rooted in the principles of SAFe, collaborative teamwork, and adaptive leadership, this training equips participants to thrive as integral members of Agile Release Trains (ARTs).

Delve into the **fundamental principles** of SAFe within dev contexts, emphasizing proactive collaboration, strategic alignment, and adaptive leadership. Develop a profound understanding of Agile methodologies and program execution strategies.

- **Interactive Learning:** Engage participants in interactive sessions and hands-on exercises during SAFe DevOps training, providing practical insights into Lean-Agile leadership and fostering collaboration.
- **Portfolio Optimization:** Analyze portfolio metrics within SAFe DevOps and recommend Agile improvements to enhance portfolio performance, ensuring alignment with organizational goals.
- **Leadership Skills:** Conduct simulation activities emphasizing coaching, facilitation, and collaboration principles essential for SAFe DevOps practitioners, empowering them to drive successful transformations.
- **Value Demonstration:** Develop value models supported by metrics such as stakeholder satisfaction within SAFe DevOps, demonstrating the tangible benefits of implementing SAFe principles for accelerated value delivery.

COURSE PROGRAM LEADING SAFE

Lean Portfolio Collaboration

Explore how Agile Teams collaborate with Lean Portfolio Management as part of SAFe DevOps, prioritizing and managing solution portfolios effectively.

Program Increment Planning

Delve into the significance of Program Increment (PI) planning within SAFe DevOps, aligning team efforts and objectives to drive continuous value delivery.

Drive Program Increment Execution for Continuous Value Delivery

Uncover the intricacies of executing Program Increment plans within the SAFe DevOps framework, ensuring a seamless flow of continuous value throughout the development cycle.

Define Key Team Roles

Clearly define the essential roles and responsibilities within SAFe DevOps, emphasizing those critical for effective teamwork and value delivery.

Craft Role-specific Action Plans

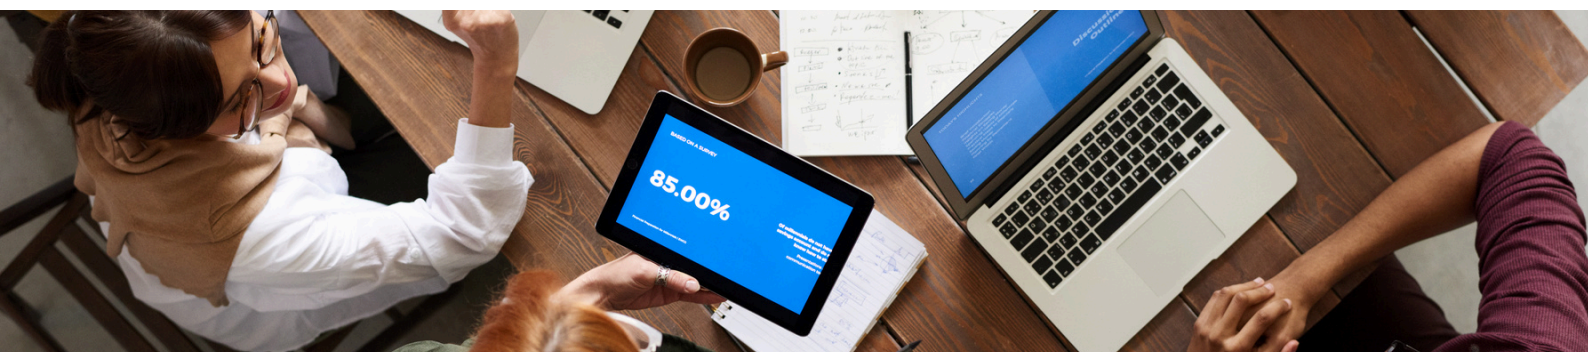

Develop personalized action plans tailored to empower team members in fulfilling their roles effectively within the context of SAFe DevOps, enabling them to contribute to transformational change and organizational agility.

Apply SAFe DevOps in an Agile Environment

Learn how SAFe DevOps principles integrate seamlessly within Agile environments, optimizing team operations and enhancing value delivery.

Align SAFe DevOps Principles with Team Dynamics

Understand how SAFe DevOps principles empower teams to excel in Agile practices, fostering innovation and continuous improvement within the organization.

ALL THE TOOLS A SAFE DEVOPS MAY NEED

HANDS-ON EXPERIENCE

Enroll in The Agile Company's SAFe DevOps course for expert guidance in mastering DevOps practices and principles. Gain essential skills to drive organizational success confidently. Join now to empower your journey with SAFe DevOps and accelerate your organization's value delivery.

SAFe AND COACHING

Crafted and shepherded by seasoned SAFe practitioners, this course provides an in-depth exploration of the foundational principles within the SAFe DevOps framework. Its emphasis lies in empowering teams and refining Agile methodologies to maximize operational efficiency and performance.

EXPLORE CAPABILITIES

The SAFe DevOps Practitioner (SDP) certification is a comprehensive program designed to elevate your expertise in spearheading DevOps initiatives within your organization. It equips you with essential skills and capabilities vital for proficiently steering DevOps practices within the organizational framework.

COACH TEAMS

Led by seasoned instructors with extensive expertise in the Scaled Agile Framework (SAFe), our SAFe DevOps course offers a thorough exploration of DevOps principles and practices. Participants will engage in a comprehensive examination of SAFe DevOps methodologies, delving into strategies for accelerating value delivery and enhancing organizational agility.

BECOME A PROFESSIONAL SAFE TEAMS DEVOPS

Through this course, attendees will uncover effective strategies for guiding Lean-Agile transformations and steering Agile Release Trains to success. Gain invaluable insights and actionable techniques to navigate the complexities of Agile at scale, ensuring your teams are well-equipped to drive value delivery and achieve organizational goals.
